

ECOMATE

ISO 9001
QUALITY

The Ultimate Luxury Adventure Caravan.

Completely deluxe, totally customisable and packed with enough state of the art features to satisfy the most tech savvy, say hello to the van of tomorrow - Our New Ecomate. This extravagantly elite caravan is a top-of-the-line option for those looking for a comfortable and sustainable way to explore the great outdoors.

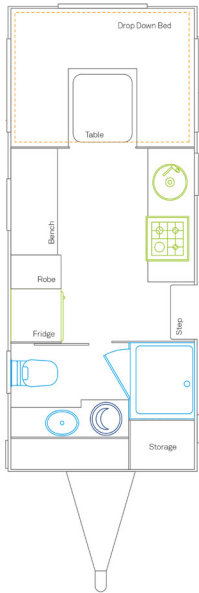

Its generous capabilities allow worry free camping in Australia's most remote locations, with the powerful lithium system not just for cooking but also climate control. An array of 5 250W solar panels including 2 on sliders provide ample power to the advanced 5600W Enerdrive inverter / charger combo with 2600 powering the AC unit. What's more, with 940Ah of DCX lithium batteries, you can enjoy extensive usage of all devices.

This year, we have also added a combination diesel heater, ensuring warm showers and cosy living even during the coldest months of winter. Of course to truly explore the great outdoors, you also need a rig that can get you there. That's why we've included Cruisemaster ATX BSC airbag suspension to all Ecomate models, along with a powered Starlink RJ45 External data socket enabling connectivity even in the remotest of locations.

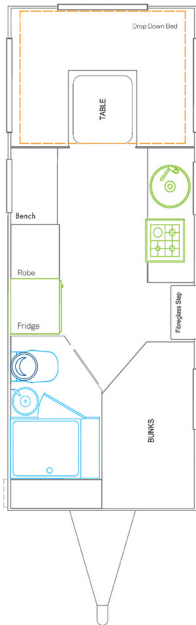

The Ecomate. Bringing Your Adventures in the Great Outdoors to Life.
