

## Redefining the concept of outdoor living.

The legendary Piazza pushes the boundaries of caravan design, delivering innovation, style, and functionality like never before. By utilizing the space above the drawbar, this unique model creates an additional 9sqm of undercover living area, perfect for entertaining, relaxing, or traveling with pets.

Now enhanced with a 200AMP / 12V LiFePO4 lithium battery, the Piazza offers extended off-grid power, ensuring better energy independence for all your adventures. The BMPRO Sway Controller adds an extra layer of safety, while the lightweight SupaGal chassis provides exceptional strength without unnecessary weight.

Its flat plate sides and back eliminate traditional corrugation, introducing a bold, contemporary aesthetic. Complemented by flat access doors with black frames and flat plate infill, the 2025 Piazza presents a seamless, streamlined finish that redefines luxury caravan styling.

The Piazza. Outside the box. Literally.
